Description:

The Technical and Business Assistance (TABA) program is a way for small businesses to get funding over and above their SBIR/STTR contract to use for commercialization assistance services from a provider they identify. TABA allows an additional supplement to the award (\$6,500 for Phase 1 awards and \$50,000 for Phase 2 awards) and is aimed at improving the commercialization success of awardees. Watch this video (and the corresponding presentation) to learn more!
